CENTER**

REQUEST FOR APPLICATIONS

**FUNDING OPPORTUNITY TITLE: EXTENSION RISK MANAGEMENT
EDUCATION COMPETITIVE GRANTS PROGRAM**

ANNOUNCEMENT TYPE: Request for Applications (RFA)

Dates: Applications must be submitted to Extension Risk Management's Results Verification System (RVS) website by 5:00:59 PM Central Standard Time (CST) on November 19, 2020. Applications received after this deadline will not be considered for funding.

Summary: The four regional Extension Risk Management Education (ERME) Centers request applications for the Extension Risk Management Education Competitive Grants Program. This announcement seeks applications from eligible organizations with a demonstrated capacity to develop and deliver results/outcome-based risk management education and training programs to agricultural producers and their families.

Funding/Awards: The four regional Extension Risk Management Education Centers anticipate awarding a total of approximately 60 new grants from this announcement, subject to the availability of funds and the quality of applications received. No award may exceed \$50,000 and/or 18 months duration.

Contents of this Announcement:

- I. Funding Opportunity Description
- II. Award Information
- III. Eligibility Information

9/15/2020

North Central Extension Risk Management Education Center 2021 RFA - 2

- IV. Application and Submission Information
- V. Application Review Information
- VI. Award Administration Information
- VII. Program Contacts
- VIII. Appendix A
- IX. Appendix B

I. Funding Opportunity Description

A. Legislative Authority and Background

The Agricultural Risk Protection Act (ARPA) of 2000, Public Law 106-224 authorized the Secretary of USDA, acting through the National Institute of Food and Agriculture (the successor agency to CSREES – the Cooperative State Research, Education, and Extension Service), herein referred to as NIFA, to carry out the program Partnerships for Risk Management Education. Under this authority NIFA partners with four regional Extension Risk Management Education (ERME) Centers to carry out a national competitive grants program in Risk Management Education to educate agricultural producers about the full range of risk management activities. Community-based organizations, higher education institutions and eligible tribal entities can play a critical role with training that provides decision tools, practices and other risk management strategies that producers can adopt to improve their economic viability.

The authorizing language has been amended through successive legislation, namely the 2008 Farm Bill (P.L. 110-246), the 2014 Farm Bill (P.L. 113-79), and the 2018 Farm Bill (P.L. 115-334). As amended, the language describes the purpose as “educating agricultural producers and providing technical assistance to agricultural producers on a full range of farm viability and risk management activities, including futures, options, agricultural trade options, crop insurance, business planning, enterprise analysis, transfer and succession planning, management coaching, market assessment, cash flow analysis, cash forward contracting, debt reduction, production diversification, farm resources risk reduction, farm financial benchmarking, conservation activities, and other risk management strategies.”

The language also places special emphasis on farm viability and risk management strategies (including farm financial benchmarking, business planning and technical assistance, market assessment, transfer and succession planning, and crop insurance participation), education, and outreach specifically targeted at:

1. beginning farmers or ranchers;
2. legal immigrant farmers or ranchers that are attempting to become established producers in the United States;
3. socially disadvantaged farmers or ranchers;
4. farmers or ranchers that—

- a. are preparing to retire;
 - b. are using transition strategies to help new farmers or ranchers get started;
 - c. are converting production and marketing systems to pursue new markets; and
5. producers that are underserved by the Federal crop insurance program established under this subchapter, as determined by the Corporation (the Federal Crop Insurance Corporation); and
 6. veteran farmers or ranchers.

B. Stakeholder Input

The four regional ERME Centers welcome comments, suggestions and/or recommendations regarding this RFA from any interested party. These comments will be considered in the development of the next RFA for the Extension Risk Management Education Competitive Grants Program. Written stakeholder comments should be submitted to the ERME Center in their region.

C. Making Application to More Than One Region

Multi-regional projects are permitted, but an applicant seeking funding from more than one region must submit a separate application to each regional ERME Center for which their project is relevant. Letters of commitment must demonstrate a strong level of commitment and collaboration for the successful execution of a multi-regional project. Each ERME Center Review Panel will make the funding decision for the application submitted to their region independently of the other regions to which the application was submitted. Please read the Application Resources (<http://extensionrme.org/Resources.aspx#RVS>) for guidance on applications being submitted to more than one region.

D. Purpose and Priorities

The ERME program provides funding for results and outcome-based risk management education projects designed to help producers learn and use tools and approaches that can reduce the adverse effects of the uncertainties of weather, yields, prices, credit, government policies, global markets and other factors, including human resources and legal issues – all of which may result in wide swings in farm income or threaten the economic viability of the farm or ranch. Applications must clearly identify what the risk management results and outcomes will be for producers and how they will improve their economic viability. Applications must also develop and use measurable outcome verification to evaluate the progress that participating producers make toward achieving the proposed risk management results.

Extension Risk Management Education Aspirational Goals and Objectives

Risk management involves taking a deliberate and knowledgeable approach to dealing with one or more of the five primary sources of agricultural risk. The ERME program aspires to enhance farm and ranch profitability and viability by enabling producers to successfully manage these risks. Proposed educational programming should align with the following Aspirational Goals:

Source of Risk	Aspirational Goals
<p>Production Risk – Any production-related activity or event with a range of possible outcomes which could limit ag producers’ ability to achieve their financial goals is a production risk.</p>	<p>Enhance understanding of yield variability, insurance products, technology, diversification and management systems to control costs and improve farm or ranch income.</p>
<p>Marketing Risk – Marketing is the part of a farm business that transforms production activities into financial success. Marketing risk is any market related activity or event that leads to the variability of prices ag producers receive for their products or pay for production inputs.</p>	<p>Improve producer understanding and use of commodity price risk management, product (niche) marketing strategies, differentiated (branding) marketing focus and relationship marketing to enhance farm or ranch viability.</p>
<p>Financial Risk – Financial risk encompasses those risks that threaten the financial health of the business, including: 1) Capital cost and availability; 2) Ability to meet on-time cash flow needs; 3) Ability to maintain and grow equity; and 4) Ability to absorb short-term financial shocks.</p>	<p>Grow farmer and rancher capacity to address strategic business planning, production cost management, recordkeeping analysis, asset management and financial planning to enhance cash flow, profitability and financial performance.</p>
<p>Legal Risk – Legal risk involves commitments that have legal implications, such as production activities that fail to take appropriate safety precautions, marketing products which can involve contract laws and human issues dealing with employer/employee rules.</p>	<p>Cultivate farmer and rancher ability to address business organization, contracts, regulatory policies and liability issues to manage businesses’ legal risk exposure.</p>
<p>Human Risk – Human risk management is the ability to keep all people who are involved in the business safe, satisfied and productive such as: 1) Human health and well-being; 2) Family and business relationships; 3) Employee management; and 4) Transition planning.</p>	<p>Develop farmer and rancher understanding of employee recruitment, retention and management; internal and external business communication; business transition and farm safety systems to improve business and worker success.</p>

Key objectives are to help producers understand the risks inherent in their operation, the methods and tools available to mitigate these risks, how to effectively use these methods and tools, and how to manage risk by implementing these methods and tools.

Applications must articulate the primary source(s) of risk faced by their target audience and develop training activities that will help those producers take specific actions that generate measurable results from managing these risks.

Applications must achieve the objectives of the program by addressing one or more of the following risk management areas and topics:

1. Production Risk
 - a. Agri-tourism
 - b. Economic risks of new technologies
 - c. Insurance products
 - d. Product and enterprise diversification
 - e. Transition to new production systems
 - f. Water use decisions
2. Marketing Risk
 - a. Analysis of market fundamentals
 - b. Cash and futures pricing tools including commodities and inputs
 - c. Marketing plans and strategies
 - d. Branded, certified or identity preserved marketing
 - e. Direct marketing
 - f. Contract Production
3. Financial Risk
 - a. Alternative energy investments
 - b. Asset management including leasing, renting, and borrowing
 - c. Business and strategic planning
 - d. Cost of production and farm financial benchmarking
 - e. Economics of input decisions
 - f. Financial records and analysis
 - g. Value-added enterprises
4. Legal Risk
 - a. Federal and state farm programs
 - b. Contracts and leases
 - c. Environmental regulations
 - d. Food safety liability
 - e. Labor regulations
 - f. Personal and business liability
5. Human Risk
 - a. Employee management and communication
 - b. Health, stress, and well being
 - c. Interpersonal, family and business relationships
 - d. Labor supply, recruitment, and retention
 - e. Transition and estate planning

E. Criteria for Evaluation

Projects funded under this announcement will be evaluated on six major criteria: 1) Proposed Results; 2) Regional Priorities; 3) Results Verification; 4) Producer Demand; 5) Team/Organizational Capacity and Collaborators; 6) Review of Past Projects, Innovative Approach and Wide Application. Each of these is weighted in its relative importance. Section V., B. of this RFA fully defines the criteria and identifies what the review panel will consider in their evaluations. Each section of the online application system must be completed and will be used to evaluate the six major criteria.

F. North Central ERME Center Priorities

The **North Central Extension Risk Management Education Center (North Central Center)** serves Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, and Wisconsin. RFAs have been concurrently released for each regional ERME Center – please visit the respective websites for additional information (www.extensionrme.org).

The North Central Center will consider will consider proposals for this RFA in two categories: 1) 2021 exploratory projects for planning, development, or pilot education efforts (awards of up to \$5,000) and 2) 2021 education projects (awards of up to \$50,000). Proposed programs should address any of the five areas of risk: production, marketing, financial, legal or human.

While all proposals will be considered on an equal, competitive basis, the North Central Center is particularly interested in encouraging proposals which 1) are exploratory in nature to support planning, development, or piloting efforts or 2) provide education on a broad range of producer risk management education needs for a broad range of producer audiences, including traditionally underserved audiences. The Center's priorities for educational programs include projects focused on a) farm and ranch family wellness, b) market and business opportunities, c) business climate and resiliency, d) environmental stewardship and legal risks, and e) educational projects with mixed/multiple delivery methods.

Exploratory Projects

While the North Central Center is focused on funding projects that propose to deliver producer education, it is also interested in providing small exploratory project awards of up to \$5,000 that support planning, development, or pilot education effort for new ideas and programs that lead to future education projects. The North Central Center recognizes that in some cases, piloting new programs, planning feasible program strategies, and building collaborative stakeholder groups may be necessary before effective risk management education programs can be developed and delivered to producers. Accordingly, the North Central Center is offering small awards to support planning, development, or pilot project activities that have as a fundamental goal the establishment of an educational program, delivery plan, and collaboration that leads to a future educational project.

Applicants in this category should review the detailed instructions provided on the North Central Center website and in the webinar training for submitting the proposal. Funds awarded to successful applicants in this category will be available beginning March 1, 2021, for planning and programming any time from March 1, 2021 through October 31, 2021.

Farm and Ranch Family Wellness

The current financial challenges in agriculture can extend beyond the immediate business operations and decisions to the human elements of the farm or ranch and more. The

Center encourages projects that address human and financial risks such as communications, personal health and well-being, and business and family finance, including family living expenses.

Market and Business Opportunities

Value-added production and marketing efforts may be an opportunity for producers looking for alternatives to commodity production, but they come with challenges and risks of their own. The Center encourages projects that educate producers on value-added enterprises, economic analysis of new enterprises, and management and marketing decisions for new enterprises. As part of this focus, the Center also encourages projects that help producers communicate with non-agricultural audiences and customers to better understand consumer perceptions and preferences and to adapt their business strategies as appropriate to successfully meet consumer demands or supply chain requirements.

Business Climate and Resiliency

Farm and ranch operations have had to be resilient to manage through the difficult agricultural business climate of the past several years with a particular focus on financial management, production decisions, and marketing strategies including new opportunities or enterprises. The Center encourages projects that help producers address the current economic challenges in agriculture and help farmers and ranchers strengthen the resiliency of their operations to cope not only with continuing economic challenges, but also with business and market volatility and potential shocks that can challenge the business plans and economic viability of the operations.

Environmental Stewardship and Legal Risks

Producers face a number of environmental regulations at the federal, state, and local level as well as conservation compliance requirements for farm program participation. At the same time, they also have access to a number of conservation incentive programs that assist with conservation practices and environmental stewardship. Public expectations for improved conservation efforts and environmental stewardship continue to grow, whether through public policy or market-driven efforts. The Center encourages projects that help producers deal with legal and other risks related to environmental issues, particularly topics like water quality, potential climate regulations and carbon policy, and stewardship expectations from consumers, markets, and supply chains.

Educational Projects with Mixed/Multiple Delivery Methods

While applicants are asked in the RFA to consider contingency plans for proposed projects in the event of unexpected program interruptions, there is also value in developing educational projects that use mixed or multiple delivery methods as a primary educational strategy. The Center is particularly interested in applications across the range of risk management topics that utilize mixed or multiple delivery methods to reach a wider range of producers that vary in terms of program or learning preferences, availability, access, or other factors.

II. Award Information

A. Statutory Authority

The statutory authority for this action is Section 133 of the Agricultural Risk Protection Act (ARPA) of 2000, Pub. L. 106-224 that authorizes award funding for projects designed to address the risk management education needs of producers.

B. Expected Amount of Funding

The maximum amount of requested funding shall not exceed \$50,000.

C. Expected Number of Awards

Each regional ERME Center anticipates awarding approximately 15-20 new grants from this announcement, subject to the availability of funds and the quality of applications received.

D. Project Period

The estimated project period for awards will be 18 months beginning on **April 1, 2021** and completed no later than **September 30, 2022**.

E. Award Type

The funding for selected projects will be in the form of a sub-award agreement. Each regional ERME Center will determine the precise terms and conditions defining contractual obligations that are a part of the award process and will include, but may not be limited to the following:

1. Approval of your final budget and narrative that is part of the application submission.
2. Compliance with Uniform Guidance (UG).
3. Monitoring your (organization's) performance through quarterly and final reports.
4. Reviewing federal funds spent on requests for reimbursement (invoices).

F. Project Director Training

All Project Directors (PDs) receiving their **first** ERME grant award are required to attend a Project Directors' Training. Each ERME Center will conduct a separate training meeting for their respective regions. This year, the North Central Center will conduct an online Project Director training webinar in Spring 2021 for the successfully funded projects. If training attendance is not possible, the PD must contact their regional Center in order to receive the required information and fulfill the contractual obligations of the grant. Although only PDs new to ERME are required to attend, **all PDs are welcome and encouraged to participate**. Regional Centers will share additional information following the award announcements.

III. Eligibility Information

A. Eligible Entities

1. Any public or private organization that has demonstrated experience in providing agricultural education or other agriculturally related training to producers including forestland owners. This includes, but is not limited to:
 - An 1862, 1890, or 1994 land grant institution, or other institutions of higher education, including community colleges, that deliver agricultural education.
 - An Indian tribal community college, an Alaska Native cooperative college, an Indian tribe, or a national tribal organization
 - A Hispanic-serving institution of higher education, Agricultural organizations, agencies, or other entities.
2. Individuals are NOT eligible applicants.

B. Qualifying Criteria for Applications

Any applications that are non-compliant with the following requirements will be at risk of being excluded from review. Applicants disqualified on these grounds will be notified via email.

1. Applications must comply with the submission instructions and content requirements set forth in this announcement, including the Required Documents Section (IV-B, Item 14).
2. Any application that arrives later than 5:00:59 PM CST will be disqualified from competition.
3. Applications must be submitted via the online Results Verification System through the applicant's regional ERME Center website, except in extenuating circumstances as determined and documented by that Center.
4. Maximum amount of funding may not exceed \$50,000.

C. Cost-Sharing or Matching

ERME does **not** allow matching support for this program.

IV. Application and Submission Information

A. Form of Application Submission

All applications must be submitted through the Extension Risk Management online Results Verification System (RVS). First time applicants will be required to register in the RVS through their respective regional ERME Center's website. If an applicant experiences technical difficulty with the RVS, they may contact their regional ERME Center to obtain an alternate method of electronic submission (i.e., email).

All applicants will be notified, by e-mail, with confirmation of receipt of the application by ERME RVS.

B. Content of Application Package Submission

Applicants must complete the sections described below. Applicants are advised to review components/requirements of the online application system prior to constructing their application.

1. **Project Overview** – Describe: (i) the risk management education subject topic(s) the proposed project will cover; (ii) the methods used to deliver the project; (iii) the target audience, including the geographical location; (iv) the number of workshops or educational activities; (v) the risk management results producers are expected to achieve through participation in the project; and (vi) the estimated number of producers who will achieve these results. It is critical that there is a logical connection between the Project Overview and the Proposed Results section of your application.
2. **Producer Demand** – Demonstrate the willingness of producers to participate in your project. The applicant must provide specific indicators that demonstrate participants will be attracted to the program, including but not limited to: benchmark information on participants' knowledge level and attitude that support the proposed risk management education; follow-up evaluations from prior workshops that document interest in topics for future workshops; and farmer or rancher contributions to the proposed program content that demonstrate their interest in the risk management topics being offered. Secondary census data from USDA does not demonstrate producer demand, but may be of value in supporting the demand statement.
3. **Proposed Results** – (i) Identify each risk management result/outcome that you want producers to understand, analyze, develop, decide, or implement; (ii) identify, for each result, the risk area, risk management topic, participant action, and the number of producers you anticipate will achieve that action/result; and (iii) identify verification/performance measures for tracking producer achievement of each of the proposed risk management results.
4. **Project Steps** – Describe a **logical progression** of the project's plan of work that will lead your target audience to achieve the proposed results. Map out the timeline for each task/project step to be accomplished during the proposed award period. Each project step needs to identify actions the **project team** will take to help participants accomplish the proposed risk management results and where applicable, actions that participants will take toward achieving these results.
5. **Project Results Narrative** – Describe the risk management issue(s) this project addresses and how it will help producers improve their economic viability. It is critical this section: (i) identifies the primary source(s) of risk for the target audience; (ii) demonstrates the education and/or training methods are appropriate; and (iii) discusses the potential and/or anticipated

economic impact of this project upon the producers being trained. If applicable, discuss how the project addresses the regional priorities.

- a. Applicants should discuss their ability to be flexible with a contingency plan for delivering proposed training activities and adjusting evaluation methods in the event of unexpected program interruption. Please note that additional project steps related to a contingency plan should not be listed within this application. However, discussing innovative program delivery alternatives in the case of unexpected program interruption is encouraged as part of your project narrative.
6. **Audience Emphasis** – Identify the farmer and rancher audiences the project will **intentionally** target. Check up to 3 primary audience groups to whom the project will be delivered.
 7. **Review of Past Projects** – Identify and review **two** ERME past projects to show how the proposed project can build upon or collaborate with previously funded projects, or alternatively, how the project is unique and innovative. Reviewing a previously funded project(s) from applicant organization will not satisfy the requirements for this section. You can review all previously funded Extension Risk Management Education projects at the following website:
<http://extensionrme.org/Projects/CompletedProjects.aspx?e=0&i=0>
 8. **Organizational Capacity** – Describe your organization’s history and experience delivering risk management education programs to producers. Describe your organizational capacity to lead results/outcome-based projects; include the skills, knowledge and experience of your team members. Indicate the capability of the Project Director (Co-Project Director) to achieve the program purpose and priorities stated in this funding announcement, including evidence of solid working relationships within the agricultural community. Applicants demonstrating experience in providing agriculture training with the capacity to lead a program on risk management education for the target audience are preferred.
 9. **Project Team** – List the Project Director, (Co-Project Director) and project team members (team members are people who will actively participate in the development, delivery and management of the project, whether from your organization or not). List: (i) each person’s name; (ii) organization; (iii) email address; (iv) telephone number; and (v) their role and responsibility in the project.
 10. **Project Collaborators** – Collaborators are outside people or organizations who will bring expertise or provide access to your target audience, but who are not involved in the day-to-day management of the project. List: (i) each

collaborator name; (ii) organization; (iii) email address; (iv) telephone number; (v) their role and responsibility in the project and (vi) upload their letter of commitment. Letter must clearly state their contributing role, expertise, and/or knowledge that will support the delivery of proposed results. Letters must be signed and dated and addressed to the Regional Center's Director, but delivered to applicant for inclusion with the application. Applicants must upload the letters as PDF documents. **Form letters are not allowed.**

11. **Tools and Curriculum** – Describe the educational tools and/or curriculum your project will develop or utilize to train producers; include software, manuals, worksheets, notebooks and/or other educational resources and tools. Describe the delivery methodology and why it is appropriate for your audience.
12. **Budget** – Enter the total amount of funds requested. A separate, detailed, budget form must be uploaded to the application as a required document. The budget form is available for download in the online application system and detailed instructions for each line item are available in Appendix A to this RFA (Budget and Budget Narrative Instructions).
 - a. **Indirect Costs** – Indirect costs allowed for projects submitted under this RFA may not exceed the lesser of the institution's official federally negotiated indirect cost rate or 30% of the total Federal funds awarded. If your organization does not have a federally negotiated indirect cost rate, an F&A rate of 10% Modified Total Direct Cost (MTDC) will be allowed.
 - b. **Proposed or Pending Applications** – Identify the source and amount of funding, if any, received for this project; and/or funding pending from other sources.
13. **Budget Narrative** – Enter your Budget Narrative information directly into the online application system. Identify and describe costs associated with each budget line item amount; include sub-awards or sub-contracts, consultants, and indirect costs. Detailed instructions are available in: (i) Appendix A to this RFA (Budget and Budget Narrative Instructions); (ii) the online application Instructions; and (iii) Application Resources (<http://extensionrme.org/Resources.aspx#RVS>).
14. **Required Documents** – All submitted applications must contain a completed and signed ERME Cover Sheet, and an ERME Budget Form. Letters of commitment from project collaborators, consultants and sub-awards should be uploaded in the Project Team or Project Collaborators sections.
 - a. ERME Cover Sheet (SF424) - Is a fillable PDF template that must be completed and signed by applicant organization's authorized

representative or fiscal agent. Applicants must upload as a PDF document.

- b. ERME Budget Form - Is a fillable PDF template that must be completed and uploaded as a PDF document.

C. Sub-awards and Consultants

Funding may be used to provide sub-awards not to exceed 49 percent of the requested budget. All sub-awardees must comply with applicable requirements for sub-awards. Detailed instructions for sub-awards and consultants are available in Appendix A to this RFA (Budget and Budget Narrative Instructions) and in the online application Instructions.

D. Submission Dates and Times

We recommend that you conduct a thorough review of the application before submission via the Results Verification System. A checklist is included in Appendix B of this RFA to assist with the review. Applications must be submitted to the RVS no later than 5:00:59 PM CST on **November 19, 2020**. Email confirmation of receipt will be sent to all applicants.

E. Confidential Information

In accordance with 7CFR 2500.017, the names of entities submitting applications, as well as application contents and evaluations, except those involved in the review process, will be kept confidential to the extent permissible by law. If an applicant chooses to include confidential or proprietary information in the application, it will be treated in confidence to the extent permitted by law, provided that the information is clearly marked by the applicant with the term “confidential and proprietary information.”

F. Pre-Submission Application Assistance

1. Links to assist in the application process and to access application resources will be provided on each regional ERME Center’s website.
2. Each regional ERME Center will respond to questions from individual applicants regarding eligibility criteria, administrative issues related to the submission of the application, and requests for clarification about the announcement. Such questions should be submitted to the appropriate regional ERME Center. **Regional ERME Centers may not assist individual applicants by reviewing draft applications.**

G. RFA Definitions

A list of definitions for terms found in this RFA, as they relate to the ERME Program, is available in the RVS Resources page (<http://extensionrme.org/Resources.aspx#RVS>).

V. Application Review Information

A. Evaluation Criteria

Applications that meet the threshold criteria in Section III of this announcement will be reviewed according to the evaluation criteria set forth below.

Applications are evaluated on their strengths and weaknesses relative to the merits of all other applications. Final funding decisions will be made based on the final rankings and recommendation of each regional ERME Center’s review panel. Applicants will be notified of funding decisions no later than February 12, 2021.

B. Evaluation Criteria for Applications

Criteria	Weight
<p>1. Proposed Results: ERME will evaluate the extent to which the proposed risk management results include clear statements of what you anticipate producers will understand, analyze, develop, decide, or implement through participation in the project; how realistic and attainable estimated producer numbers are; and the relative level of rigor associated with the progression of producer actions - from understanding to implementation.</p>	40
<p>2. Regional Priorities: ERME will evaluate the degree to which proposed results address regional priorities as identified in the RFA.</p>	10
<p>3. Results Verification: ERME will evaluate the effectiveness of the applicant’s plan for evaluating and tracking producer achievement of the proposed risk management results.</p>	10
<p>4. Producer Demand: Applicants will be evaluated based on their ability to demonstrate demand by producers for the proposed risk management education, taking into account: (i) documentation that indicates their willingness to participate in the training/education being proposed; (ii) specific indicators that demonstrate their interest in the program such as producer surveys or follow-up evaluations from prior workshops.</p>	15
<p>5. Team/Organizational Capacity and Collaborators: ERME will attribute equal value to: (i) evaluating the skills, knowledge and experience of the project team and organization to effectively deliver risk management education projects; and (ii) evaluating how well-engaged collaborating public or private organizations will</p>	15

<p>increase the likelihood of farmer/rancher participation and strengthen the project.</p>	
<p>6. Review of Past Projects, Innovative Approach and Wide Application: ERME will evaluate: (i) the extent to which the project employs innovative approaches to develop or deliver training, materials, or tools; (ii) how well your proposed project builds upon or collaborates with at least two previously ERME funded projects, or alternatively, how it is a totally unique and innovative project; and (iii) the extent to which the proposed project might have wide application; including adapting materials to specialized audiences, marketing and promotion techniques, eliciting high interest in basic risk management principles with new methodologies, or other ideas that would enable the project to have wide application.</p>	<p>10</p>

C. Selection of Reviewers

Reviewers are selected based upon training and experience in relevant agricultural fields. Reviewers are drawn from a diverse group of experts to create balance in terms of gender, ethnicity, age and professional expertise.

VI. Award Administration Information

A. Award Notices

Following evaluation of applications, all applicants will be notified regarding their status.

1. **Application Notifications and Feedback:** ERME anticipates notification of successful and unsuccessful applicants via email or postal mail by **February 12, 2021**. This notification will be sent only to the Project Director. Applicant feedback will be provided using the procedures established in the Operational Guidelines for the regional ERME Centers.
 - a. **Successful Applicants:** ERME will advise the applicant that their proposed project has been successfully evaluated and recommended for funding. This notification is not an authorization to begin work. The sub-award agreement is the authorizing document and will be provided to each awardee organization electronically or via postal mail. All sub-award agreements will be finalized by **April 1, 2021**;

however, situations may arise over which the regional ERME Center has no control, and which could delay this date.

B. Administrative and National Policy Requirements

A listing and description of general federal regulation and cost principles applicable to sub-award agreements under this RFA are available in Appendix A to the RFA (Budget and Budget Narrative Instructions).

C. DUNS Number and SAM Registration

In accordance with the Federal Funding Accountability and Transparency Act (FFATA) and the USDA implementation, all applicants must obtain and provide an identifying number from Dun and Bradstreet's Data Universal Numbering System (DUNS). Applicants can receive a DUNS number, at no cost, by calling the toll-free DUNS Number request line at 1-866-705-5711, or visiting the D&B website at www.dnb.com.

In addition, FFATA requires applicants to register with the System for Award Management (SAM), formerly known as the Central Contractor Registry (CCR). This registration must be maintained and updated annually. Applicants can register or update their profile, at no cost, by visiting the SAM website at www.sam.gov.

D. Reporting Requirements

The following reporting requirements will apply to awards provided under this RFA. ERME reserves the right to revise the schedule and format of reporting requirements as necessary in the sub-award agreement.

Award recipients must submit their reports online via the Results Verification System website – the same system where the Application was submitted. The Proposed Results and Project Steps sections of the Application are auto-populated in the online reporting system. A complete set of reporting instructions is provided in the RVS.

1. **Quarterly Progress Reports:** Quarterly Progress reports are due on the dates specified by the respective regional ERME Center, to be determined, but consistent across Centers. Additional progress reports may be submitted or report information entered at any time throughout the project period.
2. **Invoices (Financial Reports):** Invoices must be submitted quarterly, but may be submitted monthly.
3. **Final Report:** The Final Report is due within the time frame directed by each regional ERME Center and must demonstrate that producers achieved the risk management results identified in the Application. After the Final Report has been approved by the regional ERME Center, it becomes a public document available for viewing through the national ERME website: <http://www.ExtensionRME.org>.
4. **Final Invoice:** A Final Invoice must be submitted to the regional ERME Center within the time frame directed by the Center. Final payment may be withheld until all reporting requirements are met.

Extension Risk Management Education Competitive Grants Program

BUDGET AND BUDGET NARRATIVE INSTRUCTIONS

The Extension Risk Management Education Centers review proposed project costs to make certain those costs are reasonable to the project and allowable per the following federal statutes and regulations that apply to project grants awarded under this program. The statutes include but are not limited to:

- **2 CFR, Part 200** – Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.

Copies of the applicable Code of Federal Regulations and USDA Federal Assistance Regulations may be found at the following web-site: <https://nifa.usda.gov/federal-regulations>

To assist in this review, as well as to expedite the award process, applications are required to have both a budget and budget narrative detailing the various line items. The categories listed below are examples of some of the more common items found in project budgets. All items should be described in the narrative in sufficient detail to enable the Centers to determine that the costs are reasonable and allowable for the project per the regulations.

BUDGET SECTIONS A & B:

Salaries – Show the number of work months that will be charged to the project for which salary is paid by USDA [e.g., two project directors on a 12 month project – one will spend 100% of time (12 months) and one will spend 50% of time (6 Months); total work months would be 18 months]. List the funded months in either Academic and Summer or Calendar months depending on the academic appointment of the person. Non-academic institutions would report salary months under the Calendar category.

Profit and Non-Profit organizations salary rates of pay should not exceed an Executive Level IV salary range (\$170,800/year or \$82.11/hour, effective January 2020). This rate does not include any fringe benefits, G&A, overhead, or other expenses. Rates exceeding this amount must be documented and justified as to why the person or persons command a higher salary rate. Information on future Executive Level IV salary rates may be found at the Office of Personnel Management website: <http://opm.gov>. Click on “Policy”, “Pay & Leave”, then “Salaries and Wages”.

Please note that only persons employed by the recipient organization should be listed in this category. Those employed elsewhere would be listed as subcontractors or consultants in the “Other Direct Costs” (ODC) category.

Secretarial and Clerical Salaries – The salaries of administrative and clerical staff should normally be treated as indirect (F&A) costs. Direct charging of these costs may be appropriate only if all of the following conditions are met: 1) Administrative or clerical services are integral

to a project or activity; 2) Individuals involved can be specifically identified with the project or activity; 3) Such costs are explicitly included in the budget or have the prior written approval of the Federal awarding agency; and 4) The costs are not also recovered as indirect costs.

Fringe Benefits – Show the total of allowable fringe benefits.

BUDGET SECTION C:

Equipment – The purchase of equipment is not allowed under the program. Equipment is defined as an article of equipment equal to or in excess of \$5,000 and having a useful life of more than one year. See Budget Section F.6. for possible alternatives.

BUDGET SECTION D:

Travel – Domestic travel (includes Canada, Mexico and U.S. Possessions). Provide information used in estimating the cost such as: the destination if known, purpose, number of travelers, and estimated cost per trip (e.g., St. Louis, Missouri to attend a conference, 2 persons - \$1,000 ea.). This includes all travel paid directly by the grantee organization.

Use the GSA Domestic Per Diem Rate Schedule if you are unsure of the maximum rates allowable for specific locations. Travel and subsistence should be in accordance with organizational policy. Regardless of the organizational policy, allowances for airfare will not normally exceed round trip jet economy air accommodations.

BUDGET SECTION E:

Participant/Trainee Support Costs – If you are conducting a train-the-trainer project and/or your project has a train-the-trainer component, please consult with your regional Center to determine how these costs should be listed.

BUDGET SECTION F:

Other Direct Costs (ODC) are those anticipated direct project charges not included in other budget categories. A description and cost must be included in the budget narrative for each item. Items in ODC should be listed with the corresponding dollar amounts, along with an explanation of the costs provided in the Budget Narrative. Examples of items are:

1. Materials and Supplies – List materials and supplies with estimated costs. This could include items such as office supplies, software, educational or field supplies. For items that are not typical materials & supplies, a detailed narrative of how the item fits the program must be included.

2. Publication Costs – This line is associated with costs related to the publishing of articles in a scientific or technical journal or other type of field/program related publication and is not allowed under this program. Printing of program materials should be included under “Materials and Supplies”. Photocopying costs should be included under the “Other” category.

3. Consultants – A consultant is someone who renders expert advice in his/her field. The consultant should not be affiliated with the performing organization. This line item in the applicant budget narrative should include the name of the consultant and his/her organization, and a breakdown of the amount being charged to the project (e.g., number of days of service, rate of pay per hour, travel, per diem, etc.). See Sections A&B, Salaries for allowable rates of pay. Each consultant must provide the following documentation to be uploaded as part of the application: 1) Signed Letter of Commitment that also outlines their Scope of Work, rate of pay, # of hours to be paid, travel, etc.; and 2) An abbreviated resume or vita no more than 2 pages in length. These documents should be combined into a complete package and uploaded as a PDF in the Project Team or Project Collaborators section of the application.

4. Computer (ADP) Services – Computer services are not allowed under the program. This represents the charges associated with the organization’s shared computer system (i.e., line charges or computer processing usage costs). Charges for Internet access may be included in this category. Equipment purchases should be listed under “Materials and Supplies” as appropriate.

5. Sub-awards/Consortium/Contractual Costs – When a portion of the work proposed will be performed by outside sources, funding may be used to provide sub-awards not to exceed 49 percent of the total funds awarded. All sub-awardees must comply with applicable requirements for sub-awards. The level of detail required for the sub-award budget is the same as the applicant organization. See Sections A&B, Salaries for allowable rates of pay. Please note that any limitation or prohibition of indirect costs on the Program also applies to the sub-awards. This line item in the budget narrative of the applicant organization should list the total amount of funding that will go to the sub-award. The sub-award organization must provide the following documentation to be uploaded as part of the application: 1) Letter of Commitment signed by the authorizing representative that also includes a clear Scope of Work outlining their portion of the work to be completed; 2) Separate Budget for their portion of the funding; and 3) A detailed Budget Narrative supporting their portion of the budget. These documents should be combined into a complete package and uploaded as a PDF in the Project Team or Project Collaborators section of the application.

6. Equipment/Facility Rentals/User Fees –

a. **Equipment Rental** – When there is a need to rent equipment for use on the project, provide information regarding the type of equipment to be rented, the purpose or use on the project, the length of time needed, and the rental rate.

b. **Facility** – When it is necessary to rent office or other facility spaces for project implementation, and the space(s) are located off-site from the organization’s main facility in space not owned by the recipient organization, the cost of the rent may be charged against the award if the space is used specifically for the project. The budget narrative should provide details on the normal monthly rental charge and how the rent is pro-rated to the project.

7. **Alterations/Renovations** – Alterations/Renovations are not allowed under the program.

8. **Other** – For other costs not specifically listed above. Identify and provide details of the costs involved. Some of the more common items included in this category are:

a. **Communications** – Mailings, postage, express mail, faxes, and telephone long distance charges. Specific dollar amounts are not required.

b. **Photocopying** – In-house photocopying of materials associated with the program. Photocopying should not be confused with Publications/Page Charges which are costs related to publishing in a journal or commercial printing of brochures and other materials. Specific dollar amounts may not be required.

c. **Service or Maintenance Contracts** – Costs should be in direct correlation to the use of the equipment for the project (i.e., if a particular machine is used 50% of the time for the project, the project should only be charged 50% of the service/maintenance costs). Provide details of the type of equipment and the amount of the service contract to be paid from Federal funds.

d. **Conferences/Meetings** – Costs of holding a conference or meeting are included in this category. Some examples are the rental of facilities and equipment for the meeting, honorariums or fees for trainers or guest speakers, and travel and per diem for participants and speakers. Details of costs for each conference or meeting should be broken out and provided in the budget narrative.

Meals may not be charged as project costs when individuals decide to go to breakfast, lunch, or dinner together when no need exists for continuity of a meeting. Such activity is considered to be an entertainment cost. In contrast, it is NIFA policy that a formal group meeting being conducted in a business atmosphere may charge meals to the project if such activity maintains the continuity of the meeting and to do otherwise will impose arduous conditions on the meeting participants. Breakfast meals are generally not allowable because no continuity of the meeting exists.

e. **Speaker/Trainer Fees** – Information on speakers should include the fee and a description of the services they are providing.

f. **Honorariums** – Honorariums to persons providing a service are allowable. Provide information regarding the honorarium amount (rate of pay) and a brief statement regarding what the person is doing to earn the honorarium.

BUDGET SECTION H:

Indirect Costs – Indirect costs on awards supported by USDA/NIFA under this program may not exceed the lesser of the institution's official federally negotiated indirect cost rate or 30% of

the total Federal funds awarded. If your organization does not have a federally negotiated indirect cost rate, an F&A rate of 10% Modified Total Direct Cost (MTDC) will be allowed. The budget narrative should identify the percentage rate used when calculating the total indirect costs.

Other Items of Note:

Cost Sharing/Matching – This program does not allow cost share or matching funds.

UNALLOWABLE COSTS

The following is a list of selected items of costs which are usually unallowable. This list is not all inclusive. For more information on whether costs are allowable, please refer to 2 CFR 200.420-475 General Provisions for Selected Items of Cost, in the Uniform Guidance:

<http://www.ecfr.gov/cgi-bin/text-idx?SID=7fd8111fdee41b7ba10ab3f5670adc25&node=2:1.1.2.2.1.5&rgn=div6>

- Alcoholic beverages
- Entertainment costs
- Promotional give away items such as tote bags, coffee mugs, t-shirts, etc.
- Incentives such as gift certificates, cash, etc. given to entice participation in meetings, surveys, and other events.
- Rent for grantee owned facilities
- Award ceremonies
- Receptions
- Application writing costs
- Meals –

Meals are allowable when they are part of the cost of meetings and conferences, the primary purpose of which is the dissemination of technical information (in such instances the cost of transportation, rental of facilities, speakers' fees, and other items incidental to such meetings or conferences are also allowable). On the other hand, business meals may not be charged as project costs when individuals decide to go to breakfast, lunch, or dinner together when no need exists for continuity of a meeting. Such activity is considered to be an entertainment cost.

Note: Meals consumed while in official travel status do not fall in this category. They are considered to be per diem expenses and should be reimbursed in accordance with the organization's established travel policies subject to statutory limitations.

Appendix B

**EXTENSION RISK MANAGEMENT EDUCATION COMPETITIVE GRANTS
PROGRAM
APPLICATION PACKAGE CHECKLIST**

- 1. Content of Application Package** – Each section of the application in the RVS should be completed to include:
 - a. Project Information
 - b. Project People
 - c. Project Overview
 - d. Producer Demand
 - e. Proposed Results
 - f. Project Steps
 - g. Project Results Narrative
 - h. Audience Emphasis
 - i. Review of Past Projects
 - j. Organizational Capacity
 - k. Project Team
 - l. Project Collaborators
 - m. Tools and Curriculum
 - n. Total Amount Requested
 - o. Budget Narrative
 - p. Required Documents

- 2. ERME Budget Form** – upload as PDF under Required Documents and confirm that the file uploads correctly.

- 3. Signed ERME Cover Sheet (SF-424)** – upload as PDF under Required Documents and confirm that the file uploads correctly.

- 4. Collaborator Letters of Commitment**
 - a. A letter is required from each listed collaborator that clearly states their contributing role, expertise, and/or knowledge that will support the delivery of proposed results (upload as PDF under Project Collaborators).

- 5. IF the Project Includes Consultants**
 - a. Letter of Commitment from each consultant outlining role, hours and rate of pay.
 - b. Abbreviated (2-page maximum) Resume or Curriculum Vitae for each consultant.
 - c. Upload complete package as PDF under Project Team or Project Collaborators.

- 6. IF the Project Includes a Sub-Award**
 - a. Sub-award Budget Form.
 - b. Separate detailed Budget Narrative.
 - c. Letter of Commitment from the sub-award organization outlining the statement of work for that organization.
 - d. Upload complete package as PDF under Project Team or Project Collaborators.

SUBMIT your application prior to the deadline specified in your region’s RFA.
